Dear Birth Mom

Hello! We are Lester and Kirsten. Thank you for taking the time to review our profile, and we commend you for your bravery and courage in choosing this option for your precious baby. We are so excited to embark on this journey of becoming parents through the gift of adoption and hope that you will consider us in your journey.

Lester and Kirsten

About Us

We live in beautiful southern California in a suburb just outside of Los Angeles. We have been married for 9 years and will be celebrating our 10 year wedding anniversary on June 28th. We live in a quiet neighborhood with our 2 dogs Benny and Kai. Even though we don't have our own children yet, we have been blessed with several god kids that range from age 2 to 23 years old! We run a financial services business together which we've had for the past 14 years. We love helping people and have built a foundation that has allowed us to have time freedom. We embarked on our journey of starting our family 7 years ago but unfortunately experienced infertility which led us to choose adoption. We are so excited for the opportunity to be parents!

About Kirsten

Kirsten was born and raised in California to immigrant parents who came to the United States from the tiny Caribbean island of Dominica. She is the oldest of 3 girls and comes from a large extended family; her father has 10 siblings! Kirsten is very close to her family, and proud of her heritage. Kirsten's parents have been married for 39 years, and they and her sisters live walking distance from her and Lester's home. Kirsten attended Azusa Pacific University where she studied social work and worked as a Children Social Worker for the Department of Children and Family Services for a few years before going into full time entrepreneurship with her husband Lester. Since she was a teenager she has always had a love and passion for helping children, and has volunteered in her church ministry's nursery and Sunday school for over 15 years. She loves to dance, sing, and attend live concerts.

“Kirsten is an incredible god mom, and what I admire about her the most is her patience nurturing nature. She loves spending time with our god kids and is always willing to support them and spend time with them.”—Lester

About Lester

Lester is also from Dominica, and immigrated to the United States when he was 15 years old. He graduated from UCLA and got his degree in psychology. Lester comes from an entrepreneurial background. His father was a successful business owner in Dominica but unfortunately passed away suddenly when Lester was only 20 years old. It was this pivotal event in Lester's life that led him to his career and passion today of helping people secure their financial future. Lester has a younger sister who he is very close to and two nephews. His mother lives in Dominica and Lester loves going to spend time with her there every year.

Lester's passions include farming, animals, hunting and fishing.

"I believe that Lester will be an amazing and loving father. He is extremely loyal and loving towards our god kids and one of the most generous people I know." –Kirsten

How We Met

Lester's and Kirsten's moms both attended the same high school in Dominica! When Lester first came to the US, Kirsten was the first to notice him at different family/friend gatherings with other people in the Dominican community, but Lester never noticed or took interest in her! Lol

It wasn't until Kirsten graduated from college and her parents threw her a graduation party at their home, and her mother invited Lester to DJ the party. (Yup, Lester used to DJ as a side hustle back in the day!) It was then that he first really "noticed" Kirsten, and they had a full on conversation for the first time. At the time Lester was living in Inglewood, and Kirsten had just accepted her new job for the Children and Family Services in LA and was making arrangements to move to LA. They exchanged numbers, and a few weeks later once Kirsten made the move to LA Lester invited her to attend church with him. After, they immediately started hanging out regularly, and as they say, the rest is history!

Our Values

We are Christians, and attend a non-denominational Christian church. We have been members of that church for the past 8 years. Our faith largely shapes our values and outlook on life, and we look to raise our children with those same values. We believe in having an intimate relationship with Jesus Christ, and look forward to teaching our children the importance of a relationship with God and leading them up to make the decision to follow Christ themselves.

We also value family, and are grateful to have a close family and great support in our community. We have been blessed with great relationships through friends and mentors that support us and love us unconditionally.

As entrepreneurs, a large part of our life also involves personal development and growth. We love learning how to be better leaders to our business partners and how to be the best versions of ourselves!

When we are not growing our business or at church, we love to spend time with family. We also enjoy going to the movies, and hiking. We love to travel and some of our favorite destinations include Hawaii, Barcelona, Spain, and Paris, France. We are also huge foodies, and love trying new restaurants and cuisines. We believe that travel is the cure to ignorance, and are excited to expose our children to different cultures and experiences from around the world.

Dear Baby

We have prayed for you for so long. We love you so much and know that the Lord put you in our lives. We promise to be the best we can for you and provide you with a life of abundance and love. We are so excited to welcome you into our arms!

All Our Love,

Lester and Kirsten
